Mid-Pacific Institute iPad Case Specifications & Guidelines

We are requiring all students to purchase a case that follows Mid-Pacific Institute's specifications and guidelines for use with their school-owned iPad (5th or 6th Generation) also known as the iPad 2017 or 2018 model. Please note: this iPad is NOT the same as the iPad Air, iPad Air 2 or iPad Pro 9.7”.

While no case can provide a 100% damage-free guarantee, there are many cases that can help reduce incidents of accidental damage. That said, just because the school-owned iPad is in a case, it does not mean the iPad is impervious to damage. It is important to remember that the school-owned iPad will still need to be used carefully regardless of the case.

Parents are encouraged to research the best case for their child and to shop around for the best price at local stores and online. When looking for a case, please choose one where the iPad’s camera, various buttons as well as charging port are not obstructed. Also, if ordering online, allow ample time for delivery.
