

MID-PACIFIC INSTITUTE

March 27, 2014

Dear Faculty, Staff and Parents:

The Asbestos Hazard Emergency Response Act (AHERA) requires our school to notify the faculty, staff, and parents of the presence and status of asbestos containing materials in our school buildings. The law further requires a management plan based upon the findings of the initial inspection.

We conducted the required 3-year inspection from March 17 - 21, 2014. The results of the completed inspection indicate that there are ACBM in various buildings that do not pose any immediate health hazards.

A copy of the inspection report and Asbestos Management Plan is available for your review in our Facilities and Maintenance Services office.

Sincerely,

A handwritten signature in black ink, appearing to read "Henry M. Howlett".

MID-PACIFIC INSTITUTE

March 27, 2014

The Elementary school and the Mike and Sandy Hartley Math, Science & Technology Complex (East and West wings) / Harry and Jeanette Weinberg Technology Plaza were built after 1978. No asbestos based materials were installed in any of these projects. As a result, those buildings are not included in these reports.

A handwritten signature in black ink, appearing to read "Hank Howlett".
